Press Release

## CreativEU:

### *an EU-project for diversity & inclusion*

CreativEU (“Cultural Diversity: creating inclusive environments in small communities across Europe”) is an Erasmus+ project that intends to promote **cultural diversity and inclusion both in the workplace and the community**, by involving migrants and natives in a positive integration process, which includes several groups, such as employees, employers and citizens.

Throughout the project, a series of **educational activities** will be developed and tested, using **digital storytelling as a key-methodology** for adult learners. Through storytelling and its ability to combine traditional narrative means with photography, video, music and many other media, diverse experiences will be connected, in order to build a universal culture of solidarity and empathy.

Recently, partners successfully completed the first Output of the project; in particular, IO1 explored the **state of the art as regards integration of migrants in both the professional sector and the community in small and rural communities**. The aim of IO1 was to identify **good practices regarding digital storytelling, while promoting cultural diversity and solidarity** in the five participant European countries; moreover, good practices of digital storytelling applied in other EU countries were identified as well, which can potentially be transferred and adapted to any European country. The full report is available [here](#).

The project is funded by the Erasmus+ program of the European Union; it has a duration of 28 months (September 2020 – December 2022) and is implemented by the following organizations:

Co-funded by the  
Erasmus+ Programme  
of the European Union
