**NOW-SEE: New Opportunities for Women
through Sustainable Environmental
Entrepreneurship**

NOW - SEE is 24-month Erasmus+ project implemented by organisations from Romania, Cyprus, Poland, Lithuania and Spain.

What is new in NOW-SEE:

At the end of June, we had our first face-to-face meeting in 2023!

All partners met to discuss the finishing touches of materials under the workshop "Could sustainable entrepreneurship be my future?" and discuss the main meeting point that was the work under our next result: educational e-Studio "Women in sustainable environmental entrepreneurship?".

The meeting was held in Rzeszów, Poland and lasted two days, from the 28th to the 29th of June, hosted by our Polish partner Danmar Computers.

The main aim of the project:

To raise awareness of women's good practices in sustainable environmental entrepreneurship and motivate them for the green transition.

To create innovative upskilling digital pathways to develop competences and skills of a sustainable environmental entrepreneur

NOW-SEE: New Opportunities for Women through Sustainable Environmental Entrepreneurship

NOW - SEE is 24-month Erasmus+ project implemented by organisations from Romania, Cyprus, Poland, Lithuania and Spain.

More about the meeting...

All partners were discussing content and learning outcomes that will be available in E-Studio "Women in sustainable environmental entrepreneurship". We were working to finalize the learning matrix that will be used to create learning content in the coming months.

There was also a debate on how the training material will be presented to give the best experience to the user.

We are all happy with the work done for the first result, which will be available in the near future, e-learning platform "Women in SE entrepreneurship".

The platform will include interactive reading, stories from successful women entrepreneurs that created their own sustainable businesses and innovative solutions for already existing businesses around Europe.

Now-See project team on face-to-face meeting

2nd Local Stakeholders Forum

June was a busy month for us! We also had the 2nd meeting of the Local Stakeholders Forum in our countries. Their task is to aid us in creating the materials, making sure that the topics covered are going to be useful for women who want to start sustainable entrepreneurship.

We will use their feedback in the creation of the materials to ensure the best possible quality.
